HPV vaccination

Dear Parent/Guardian,

Last school year you consented for your child to receive 2 doses of the HPV (Human papilloma virus) vaccination. The first dose was given in year 8 and the 2nd and final dose is now due in year 9. The nursing team will be attending your child's school on **Wednesday 19th April** to give the final HPV2 vaccine to your child.

If you have had the second vaccination elsewhere, you no longer wish for your child to have the second vaccination or any of your child's health circumstances have changed, please can you inform your school so that they can inform us before the vaccination session.

If nothing has changed you do not need to take any further action, and the nurses will vaccinate your child when next in school. **Please do not complete an additional consent form.**

For further information and translation please visit the following website: www.nhs.uk/vaccinations where you can also find information on the virus, the disease, and the vaccine, as well as links to other useful websites.

Kind Regards

Bromley School Age Immunisation Team
